

CUXHAVEN VISITORS

MEETINGS ONLY ONLINE?

FOR SURE NOT!

We are very pleased that the pandemic situation here in Germany is currently easing somewhat and that we are once again able to receive guests at our headquarters in Cuxhaven under strict hygiene measures.

In June, we welcomed guests from the companies LOHMANN Süd and Bröring. Our experts were very happy to finally be able to give lectures in front of an audience again. They provided up-to-date information in the areas of genetics, animal health and feed.

We are already looking forward to being able to hold proper training courses in Cuxhaven again and to welcoming customers from abroad once more, as freshly renovated rooms are waiting for our guests after all!

You are very welcome!
