Dear ECO Business Partner,

The world is changing, and we are living in a challenging time. It is clearly felt in the poultry industry across the globe. The poultry industry continues to innovate and deliver the safest, healthiest, and the cheapest protein source to consumers all over the world despite the many challenges.

We are pleased to invite you to our Second ECO Asia Poultry Online Conference taking place virtually on November 16th and 17th, 2021. The 2-day event features an international panel of speakers and will focus on approaches to managing current challenges to be ready for the future of poultry production.

We look forward to your attendance and full participation to shape the picture of the future together.

Sincerely yours,

Sumrit Toopiya
Sales Director, Southeast Asia
