

MANAGEMENT GUIDE ALTERNATIVE SYSTEMS FINALLY IN A PRINTED VERSION!

Nicole Rehse
PR/Communication

Until now our Management Recommendations for Barn, Aviary & Free-Range Systems were only available as an E-guide. The advantage for you: all important aspects are supported with videos and additional information.

From **now on**, our guides are also available as print versions. **Of course**, we have small quantities on stock for you. For larger quantities, we will be happy to provide you with the corresponding print file.

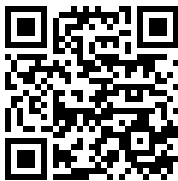

But LOHMANN would not be LOHMANN if the print version did not hide something more. The print version can compete with our E-guide regarding additional information. **It is peppered with QR codes so that you can easily call up additional, detailed information on the topics of interest to you on your smartphone or tablet!** Or do you only need the performance data and body weight tables of a specific breed? Then we have a little extra for you: for each of our lines, we have summarized this data in a printable guide.

**PRINT
VERSION**

NEW PERFORMANCE DATA!

NEW DESIGN! NEW PRACTICAL BENEFITS FOR YOU!

CHECK PRODUCTION CHARTS

Our new production charts are now available to you – for every line, for every management.

Your practical benefit: the production charts are ready to download and print! Enter your data and compare them with our standards – everything at a glance!

The image shows a digital interface for the Lohmann production chart. The main screen displays 'LOHMANN BROWN-CLASSIC Layers - Cage Housing' with a 'Leaflet' icon. Below this, there is a section for 'Egg Production | Cage Housing' with the following data:

	Age at 50 % production	Peak production
	140 - 145 days	94 - 96 %

Below this table are three columns of data for different ages:

	at 17 weeks of age	at 30 weeks of age	at 35 weeks of age
...	314	20.45 kg	61.7 g
...	367	23.31 kg	64.1 g
...	463	25.92 kg	64.9 g

Two printed leaflets are shown: 'LOHMANN BROWN-CLASSIC PERFORMANCE DATA' and 'LOHMANN LSL-CLASSIC PERFORMANCE DATA'. Both leaflets feature a chicken and an egg, and contain detailed performance data tables.

Our production charts are available in English, German, Spanish and French!
