DATA RECORDING AND FLOCK MANAGEMENT SERVICE

- web-based, easy accessible data managing and monitoring tool for parent stock and commercial flocks to find under <http://ltz.flockman4u.com>

Input of Data

How to access this new tool?

- Apply for a customer access at ts@ltz.de
- Sign our mutual non-disclosure agreement
- Get a customer number, username and password
- GET STARTED WITH <http://ltz.flockman4u.com>

The Main Advantages are:

- Customer can easily collect and record data of his own flock.
- Single flock results are shown as graphs and tables.
- A peer report ranks the customer's own flock according to egg number/HH.
- A worldwide database is built up, which gives reliable information about the performance of our birds and makes calculations and analysis much easier.
- The anonymous comparison with similar flocks in the database is a valuable and interesting evaluation.
- With the input of additional information such as housing system, density, climate etc. even more reliable comparisons are possible.
- The lighting program software for open houses is implemented.
- Input and treatment of economic data is in the pipeline.
